

# HYBRID WET C-BOND

## DIAMOND TOOLING SERIES

**NEW!**

Hybrid 3" Velcro Puck Diamond Tools for Wet Grinding / Power Trowel

**Increase efficiency with the industry's most effective and economical hybrid series, now with a new and improved formula!**

The SASE Hybrid Wet C-Bond Series boasts a new and improved formula that includes an exclusive, proprietary copper matrix resulting in up to 300% increase in tooling life and easy and effective transitioning between metal and resin bond steps.

### FEATURES

- New and improved formula including an exclusive, proprietary copper matrix
- Part of SASE HydraTrowel System for use with ride-on power trowel equipment
- Easy and effective transitioning between metal and resin bond steps
- Increased efficiency with up to 300% increase in tooling life\*
- Can skip grinding steps or be used as a starting point for a 3 to 4 step economical, salt and pepper or cream finish floor
- Designed for wet grinding applications
- Lower grits can remove most cure and seals

**300% Increase  
in tooling life**

\*When compared to  
previous hybrid wet  
series.

## DIAMOND TOOLING SERIES

### SASE Hybrid Wet C-Bond Series Tooling Guide

Item #	Product Name	Description
	HOL.300600 Hybrid Wet C-Bond Series 30 grit - Lime 3" Puck	This tool is designed for wet operation and can be used to remove cure and seal off of new concrete and/or be the initial starting point to expose salt and pepper aggregate. It can also be used to remove 25 grit metal scratches.*
	HOL.300601 Hybrid Wet C-Bond Series 50 grit - Grey 3" Puck	This tool is designed for wet operation and can be used to remove cure and seal off of new concrete and/or be the initial starting point to expose salt and pepper aggregate. It can also be used to remove 40 grit metal scratches.*
	HOL.300602 Hybrid Wet C-Bond Series 100 grit - Black 3" Puck	This tool is designed for wet operation and can be used to remove thin cure and seal off of new concrete and/or be the initial starting point to expose little to no aggregate (cream finish). It can also be used to remove 80 grit metal scratches and removal step after a grout coat application.*
	HOL.300603 Hybrid Wet C-Bond Series 200 grit - Blue 3" Puck	This tool is designed for wet operation and can be used to remove 100 grit hybrid and/or 150 grit metal scratches.*
	HOL.300604 Hybrid Wet C-Bond Series 400 grit - Red 3" Puck	This tool is designed for wet operation and can be used to remove 200 grit hybrid scratches and in some cases, remove 100 grit hybrid scratches.*

*\*All concrete floors and project specifications are unique. Use these descriptions as a guide and test small areas before proceeding with full scale operation.*

**WORKS GREAT UNDER  
FLOOR GRINDERS &  
POWER TROWELS!**
